Great worthwhile addition after the Sulzer waterfall. Unfortunately, the first slide & plunge pool is covered in gravel. (traducción alternativa)

Whether coming from the Sulzer waterfall or from the hiking trail, do not start at the top of the waterfall.

Otherwise a relatively long block climb between hikers taking a dip. It is easier to go down from the waterfall on the hiking trail until it crosses the canyon for the first time with a bridge. After the bridge, you can start about 50 m further on when a small stream comes from the right. Here the path is also reinforced with wood and many hikers have already stepped down here. The penultimate rappel (chain anchor on the right, accessible with an access rope) can be jumped or slid from the path. (traducción alternativa)

We were in Sulzer Waterfall and had parked a car at the ball mill. We originally wanted to take the hiking trail along the gorge, but very quickly realized that the canyon is very well set up and the canyon as a whole is worthwhile. Clear water, great pools with beautiful jumps - a superioere combination with the Sulzer waterfall. (traducción alternativa)
