Resumen: (traducción alternativa)
Rappel canyon with low abseiling points

Hidrología:

Acceso: (traducción alternativa)
From Schüpfheim, follow the road south to Sörenberg until you reach the exit parking lot.
Alternatively, drive to the parking lot after the bridge over the Staubbach (644'071.51, 196'958.08) and park a car there.

Acceso: (traducción alternativa)
From near the "Fruttegg-Beizli" it is only a few minutes on the road to the marked entry point

Recorrido: (traducción alternativa)
Forest gorge with beautiful, mostly short but sometimes wet abseiling sections.
A little narrower at the top, the further down you go, the more open the canyon becomes.
Some downclimbs.

Regreso: (traducción alternativa)
Either exit at the bridge over the Staubbach and head straight to the car, then skip the last two rappels and the part in/near the Waldemme.
Or just to the exit and through the Waldemme to the exit.
In both cases only a few minutes.

The further down you get, the more slippery it becomes. Then very slippery at the bottom. As the bridge over the Waldemme is currently occupied by a construction site, we recommend the alternative exit at the bridge over the Staubbach at 644'071.51, 196'958.08. Anchors were all in order. Rappels can / must be made on trees in places. (traducción alternativa)

Approach to the entrance to Rest. Fruttegg. The gorge is also passable when there is more water, as you can avoid almost everywhere in the forest. Before the ascent, be sure to check the water level at the exit in the Waldemme. If there is too much water, you can get off two rappels before the exit at the road bridge. (traducción alternativa)
