País: Schweiz / Switzerland Región: Kanton Tessin / Cantone Ticino Subregión: Bezirk Riviera Ciudad: Biasca		
Dificultad: muy difícil	Grado: v6 a3 IV	Tiempo total: 5h50
Tiempo acceso: 1h15	Tiempo tour: 4h30	Tiempo regreso: 5min
Altitud de entrada: 770m	Altitud de salida: 300m	Altitude delta: 470m
Longitud del cañón: 600m	Rapel más alto: 115m	Cantidad rapells: 13
Transporte: A pie	Tipo de roca:	Zona de entrada: km ²
Temporada:	Orientación: Oeste	Mejor época:
Clasificación: ★ 4.1 (5)	Información: ★ 2.3 (4)	Belay: ★ 2.5 (4)
Especialidades:		
Equipo: Cuerdas: 2x 120m		
Resumen: (traducción alternativa) rappel canyon		
Hidrología:		
Acceso: (traducción alternativa) Drive from the Biasca highway exit to the center of Biasca and park your car behind the train station (see coordinates)		
Acceso: (traducción alternativa) Next to the final waterfall, turn right orographically up a small path. Cross the bridge and now orographically left on a marked path always close to the stream up to the vicinity of a house (Cantoi - 645 m a.s.l.). Here you climb to the foot of the high waterfall to the entry into the lowest part of the Froda (600 m above sea level).next to the final waterfall orographically right on a small path steeply up to the stone bridge. If you want a flatter, easier path, you can also start at the church in the village (Ciesa Pietro e Paolo) --> see Start Intermedio; from there in the direction of Santa Petronilla (= stone bridge). Now ascend orographically left on a marked path always close to the stream until near a house (Cantoi - 645 m a.s.l.) (here you could already descend to the stream if you want to skip the 70 /115 m sequence). Continue along the path until after a hairpin bend a path branches off to the left (approx. 790m); follow this for a few more minutes until you reach the stream at 770m.		
Recorrido: (traducción alternativa) If you are looking for a very vertically demanding canyon, this is the right place for you --> work carefully with the rope and always give enough rope (some of the edges are very sharp) --> essentially you have a breathtaking view throughout the canyon --> be careful in the lower part (after the stone bridge) --> danger of falling rocks due to rope retrieval or bathers.		
Regreso: (traducción alternativa) Turn right (watch out for barriers!) approx. 400m to the car.		
Coordenadas: Inicio del Cañón 46.3515 8.9838 Final del Cañón 46.3533 8.9756 Aparcamiento Entrada y Salida 46.3564 8.9736

High abseils, some rock friction. Slippery. Nice views over the valley! Waterlevel low at the moment.

Everything is tip top. If you leave from the lower parking lot at 10 a.m. in August, you are in the shade right up to the entry point. The inhabitant of the stone house at the access point asked us to be quiet (quote: "this is a quiet place"). So please don't organize a whistling concert, it's absolutely not necessary. Lots of people at the end. Mega tour. A must-do... (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Froda (inferieur) Fait à la suite de la partie intermédiaire. Nous n'avons pas trouvé l'amarrage de l'avant dernière cascade. L'enchaînement de ces deux parties est vraiment incroyable mais bien long après les 2.5 heures d'approche. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2556/observations.html>)
