Spécialités:

Matériel:

Résumé: (traduction alternative)
Unfrequented ravine due to its long accesses to the three parts, being the lower one the most interesting and closest. Quite slippery, in summer almost without water and with a lot of kicking area and brambles.
Prohibited the activity in the park https://parcs.diba.cat/ca/faqs/escalada-espeleologia-bany-barranquisme

Hydrologie:

Accès: (traduction alternative)
We must be located in Viladrau.
Location of Viladrau ravines
By the C17 at the height of Tona we will turn off towards Seva by the BV5303, we will continue and at a fork we will go to Viladrau by the GI520. With almost 2kms to go we find a restaurant (La Solana) and a track on the right that we will take until we reach a metal gate.
If you have an access car in Seva, take the BV5301 to El Brull and follow the road to Collformic, where we have parking.

Approche: (traduction alternative)
Access to ravines Rentadors, Oratori and Erola
With a car from the iron gate we follow the track, we will follow a detour to the left by the farmhouse of Can Bosc and the hermitage of Erola. We will continue towards Sant Segimón Sanctuary until we cross the torrent de l'Oratori. Beginning of the lower part.
For the upper parts we follow the path and pass the sanctuary, until the hill of Saprunera where we can take a path to the left that leads to the intermediate part or follow the path to the Font del Matagalls where the upper part begins.
With two cars we will leave by the path of the Turó d'en Bessa, when we reach the ridge we will take the path on the left that goes down to the Torrent dels Rentadors and we will go up to the Coll de Saprunera to do the upper parts.

Tour: (traduction alternative)
Very long descent, it is advisable to do the lower part only. It is the most interesting

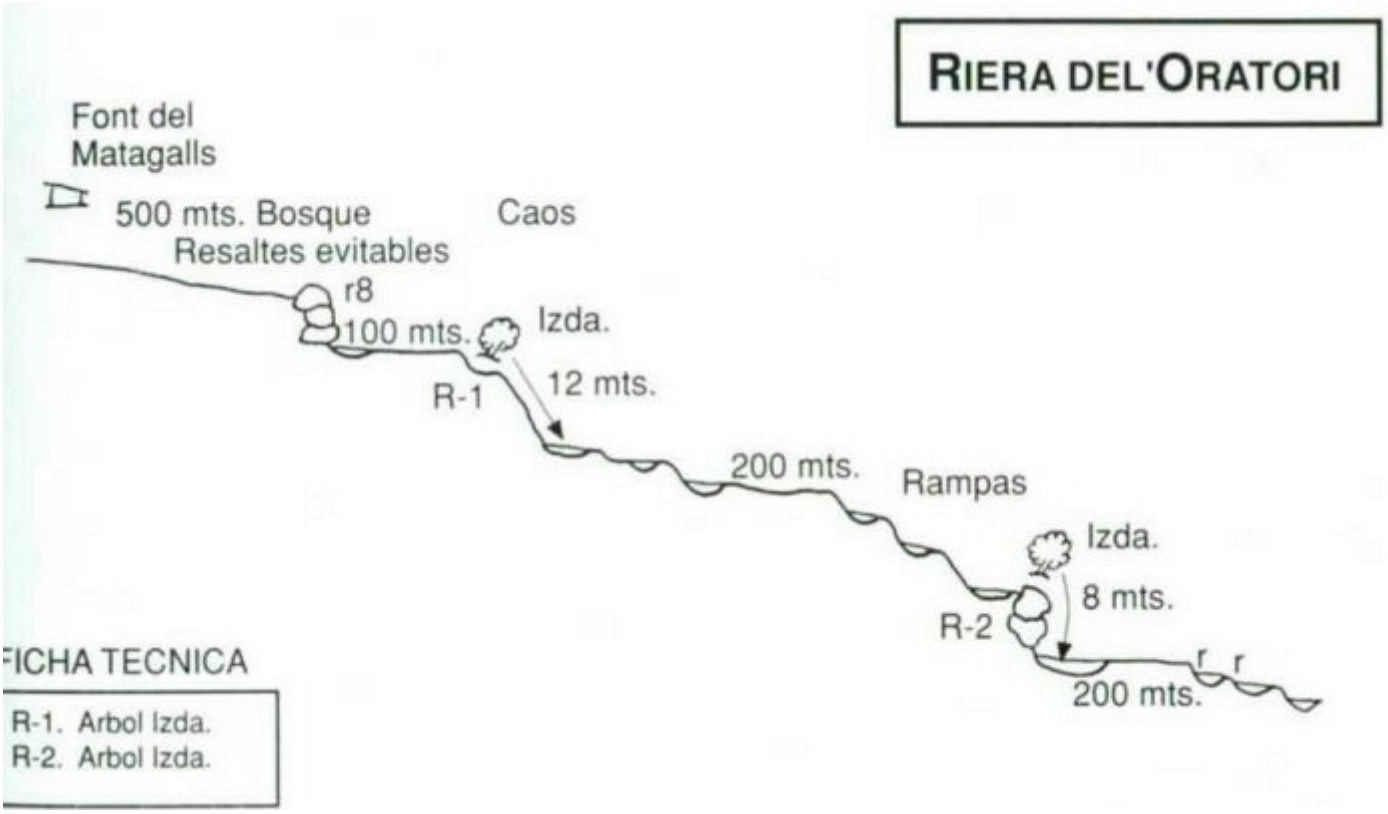

Retour: (traduction alternative)
After the confluence with the Torrent dels Rentadors we will follow about 200m of riverbed to find the track that takes us up to the iron gate.
