Résumé: (traduction alternative)
Rappel canyon that should be entered after several days of rain.

Hydrologie:

Accès: (traduction alternative)
From Zurich, take the A3 highway to the Bilten exit, then head towards Niederurnen. In a left-hand bend, turn right into the main road and then immediately left into Strehlgasse, which becomes Feldstrasse. Follow this road until you reach the P.

Approche: (traduction alternative)
From the parking lot in Niederurnen, walk towards the stream and turn left onto a forest path (no driving). Follow this to the exit and then follow the path to the right, which leads across a meadow to the road, which you follow up to the top. At the exit of the asphalted road, follow the fence to the canyon rim, then rope down the tree 25 m into the canyon. The owner has paved a slope down to the stream, but has declared it as private land.

Tour: (traduction alternative)
The tour starts in the forest with smaller rappels, sometimes trees are needed as it is slippery. After 15 - 20 minutes it becomes more raviney and the tour starts to be fun. When you get a view, you have almost reached the exit. A 70 m waterfall marks the end. Then there is a final rappel into the unsightly streambed.

Retour: (traduction alternative)
Follow the stream until you reach the road or dirt track. From there it is 2 minutes to the parking lot. Total 15 - 20 min.

We walked the pavement road in hot weather. The approach had no tree shadow... making this canyon less worthy. It's better to come here on a cloudy day with more previous rain accumulation. All anchors are good.

Short canyon with one beautiful part. It is almost always doable, even if other canyons have too much water. (traduction alternative)

Wood at the beginning and not really beautiful, just as after the high waterfall. In between it has really beautiful and gorge passages. (traduction alternative)
