Résumé: (traduction alternative)
O barranco de las Güitas is a ravine with exit to the sea, like its neighbor Calabacera, which forces us to have someone to pick us up. Very complex for its vertical, its duration and its return, it is a descent only for experienced people and good preparation. Access from Teno, like the rest of the ravines in the area and return at the lighthouse.
The Salto del Pescador, with its 240m split we must organize it very well for the use and collection of ropes, as well as to avoid throwing stones to colleagues who are below.
Under access restrictions according to the Plan Rector de Uso y Gestión del Parque Rural de Teno (PRUG).
Currently they do not issue authorizations https://montanaregulada.org/area/barranco-del-roque-largo

Hydrologie:

Accès: (traduction alternative)
On the road to Buenavista del Norte, with the return car we will continue to the lighthouse / Punta de Teno, where we can leave the return car.
Keep in mind that this road has access restrictions, there is also a bus line to the lighthouse.
With the access car, again in Buenavista, we leave by the road to El Palmar TF436, just past El Palmar we take the detour to the right to Teno Alto. Once in Teno, we will arrive at the bar Los Bailaderos, here we continue straight on towards Punta de Teno and then at the next junction to the left. If we look in Maps, it is the street of the Naturteno cheese factory or the parallel one. We are looking for a good place to park without disturbing the traffic.

Approche: (traduction alternative)
We head south along the Tablada road, after 300m we turn to the right, already sensing the course of our ravine.

Tour:
