Résumé: (traduction alternative)
Open rappel canyon

Hydrologie:

Accès: (traduction alternative)
From Locarno to Gordola and from there turn off into Valle Verzasca. Follow the road to Lavertezzo and park shortly after the village in the paid parking lot on the left-hand side. (The other parking lots directly at the bridge only have a maximum duration of 3 hours!)

Approche: (traduction alternative)
From the parking lot, return to Lavertezzo and cross the Verzasca over the famous stone bridge. Turn right immediately after the bridge and follow the path along the river. After about 5 minutes you enter the forest again. After a small clearing, re-enter the forest and turn left. There is a yellow hiking trail sign on a rock on the right and a blue dot on the left. On very faint tracks and following the blue dots, you quickly gain height and head towards the stream (Swissmaps on your cell phone is very helpful here, also for the further course).
After crossing the stream, stay on the path for a short time and turn left at the first opportunity. The first few meters are steep, but recognizable. After that, look for tracks (here you are sometimes far away from Swissmaps). Cut trees and branches point the way. (You get the feeling that you are moving far away from the canyon). On the map, the house Mött Coa, 985 m, is indicated. Behind the little house, look for a water pipe that first leads steeply upwards, where you will find better tracks again. Follow the pipeline to the stream. There is a trail on Wikiloc, you can find it under Links.

Tour: (traduction alternative)
The first rappel is over a tree or you can orographically go around the first step on the right via a small path. The rappels take place in an open environment and are mostly ramps, only in the lower part after the path does it get steeper.
The canyon is suitable in spring when there is still some water in the canyon.

Retour: (traduction alternative)
With the last rappel, follow the path on the right back to the bridge (and jump from it) or swim (at low water!!!) to the other side and you are quickly back at the parking lot, which is on the right.

Such a beautiful canyon! We hiked it two days after some heavy rain. The access was easy to find, thanks to the many blue markers and by following the water pipe past the cabin. It was pretty slippery. (traduction alternative)

This can usually be done even after rainy days... With Jenny, Gertjan, Cas, and Bas (traduction alternative)

Two new anchors set. At one point, a freshly fallen tree blocks the actual abseil route. Fixed ropes have been attached to a tree on the right to get to the next anchor. Slippery to walk in places. The access was easy to find thanks to the good markings and the GPS track, but covered with lots of leaves. (traduction alternative)

We wanted to do something less well known in the area and this is x not bad at all, a few weapons issues and rock a bit slippery but overall tour worthwhile (traduction alternative)
