Apart from the 50m waterfall as a highlight, otherwise a lot of streambed wading with undergrowth and wood. (traduction alternative)

All good. The 55m rappel from the tree: there is a first branch with a single anchorpoint. Don't use this. Use the one 3m further. It is more solid and the rope doesn't 'slide' over the branch

Automatisch importiert von Descente-Canyon.com für Canyon Passo (inférieur) Fait l'intégrale, en 4h à 4. Pas mal d'embaclés dans la partie inf. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22149/observations.html>)
