Résumé: (traduction alternative)
Rappel canyon, waterfall visible from the main road\nDescription according to AIC-catasto.

Hydrologie:

Accès: (traduction alternative)
From the exit of the A27, which can also be reached from Belluno, along the continuation of the road, the SS51 for another 4.6 km along the Piave river to the north, then we turn right in front of the industrial park. We cross the Piave river and follow the road that subsequently describes a wide curve to the left. We take the next road to the right and immediately turn right again. The road now goes south and then turns north. At its exit we park our car at the edge of the woods (see also access from Belluno in the photo gallery).

Approche: (traduction alternative)
We take the track at the exit of the road in northern direction, which describes a bend to the right, later to the left. We come across a path coming up from the left, follow it up to the right until we meet the stream (entry). We can also stop a little before (970m altitude) directly down into the streambed (930m altitude).

Tour: (traduction alternative)
17 waterfalls

Retour: (traduction alternative)
Exit to the right on a path that crosses the stream. On this path to the road and the car.

Automatisch importiert von Descente-Canyon.com für Canyon Faore Coi 110mm di pioggia scesi tra Lunedì e Martedì, oggi Sabato la portata era buona, ma non problematica.Sostituito un cordino in un masso al centro del greto dopo le grandi verticali iniziali. Tutto il resto ok.Verso la fine dell'avvicinamento, quando si vede finalmente il greto, si può abbandonare il sentiero scendendo ripidamente per tracce e si arriva esattamente alla sosta della prima calata (armo singolo dx) dove c'è molto spazio per la vestizione.Segnale 4G Fastweb Mobile prendeva bene ad inizio discesa a quota 950. In the upper part many loose stones and at high water level the possible abseiling passages not immediately apparent. 2 times rappelling over trees necessary. Lower area very well secured. In principle, even at high water levels without problems. https://www.bergfex.at/mybergfex/activity/46fdc5f02dd9595e287f7b31d97c54d9/ (traduction alternative)

The approach is a steep hiking trail that is easy to find. In sections it is necessary to climb off rocks, hooks are available only in the most necessary places. A beautiful open stream with some longer rappels. (traduction alternative)
