Pays: France Région: Provence-Alpes-Côte-d'Azur / Provence-Alpes-Cote d'Azur Sous-région: Hautes-Alpes Ville: L'Argentière-la-Bessée		
Difficulté: moins difficile	Niveau: v2 a3 II	Temps total: 1h40
Temps approche: 10min	Temps tour: 1h20	Temps de retour: 10min
Altitude d'entrée: 1250m	Altitude de sortie: 1210m	Altitude du delta: 40m
Longueur du canyon: 750m	Rapelle le plus haut: 5m	Nombre de rapelles: 3
Transport: Voiture facultative	Type de roche: limestone	Zone de prise d'eau: 45.00km ²
Saison: juillet - septembre	Orientation: Est	Meilleur moment: 10-16 Heures
Évaluation: ★ 3 (6)	Info: ★ 2.5 (6)	Belay: ★ 2.5 (6)
Spécialités: Barrage (chasse d'eau automatique),		
Matériel: Cordes: 1x 20m		
Résumé: (traduction alternative) The descent is a series of small ledges and slides.		
Hydrologie: (traduction alternative) There is a clearly visible scale at the entrance to the canyon - if the water level is above the "0" mark, you must leave the canyon immediately. Attention, there are warning signals in the canyon - if these are triggered, the water intake has been opened and the canyon must be evacuated immediately. Nobody is allowed to stay in the canyon after 6 pm.		
Accès: (traduction alternative) In L'Argentière, take the road that leads to the Fournel valley and the silver mines of the same name. Follow the road to the parking lot of the mine, which is the lower parking lot (small wooden hut with telephone booth).		
Approche: (traduction alternative) From the parking lot, follow the asphalt road uphill to the beginning of the canyon (signposted).		
Tour: (traduction alternative) The level can change quickly. The canyon has a number of exits that are equipped like via ferratas and, above all, are well marked. There is a scale at the entrance that shows the water level. Access to the canyon is only permitted when the scale at the entrance to the canyon shows 0 or lower. No one is allowed in the canyon after 6 pm. The descent consists of a series of small jumps, slides, etc. (Check the water depth!). (Check the water depth! The level can change quickly) During the walk down, there are 3 or 4 passages under blocks or siphons that break up the descent. One of the siphons is remarkable in the middle of the canyon. The blocks form a floor with a siphon in the middle. Despite the feeling of confinement, it goes very well and you end up in the pool below in a fraction of a second. Everything can be done without ropes, without having to worry. July to September seems to be the best time for this canyon, which is heavily frequented by tour guides. It is the most frequented canyon of the Haut Val-Durance as it is one of the easiest and is suitable for a first discovery of the area, taking place in a beautiful natural setting. If you know how to use the terrain, it even offers good opportunities for jumps, slides and unexpected passages.		
Retour: (traduction alternative) At the mine, exit on the left bank via the path

Automatisch importiert von Descente-Canyon.com für Canyon Fournel Dernier Fournel de la saison. Personne dans le canyon. -10 a l'échelle. Top conditions. Pas vu de conséquences notables des récentes crues. Tout passe comme d'habitude. Toujours peu de fond dans le second ressaut de l'étroiture finale. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/276/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Fournel Attention, les sauts qui étaient encore possibles la semaine dernière ne l'étaient plus aujourd'hui, car l'eau dans les bassins n'arrivait plus qu'à hauteur des hanches. Prudence donc après de fortes pluies.Descente agréable et très court, si vous n'êtes pas encore épuisé après avoir parcouru un autre canyon de la région. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/276/observations.html>)

2025-09-05 | Christian Balla | ⭐⭐👉 |📖⭐⭐|📍⭐⭐|🌊 Normale | 🟢 Terminé

Compared to a week ago, hardly anything is still jumpable - pools are full and sometimes only knee-deep (traduction alternative)

2025-08-30 | Christian Balla | ⭐⭐👉 |📖⭐⭐|📍⭐⭐⭐|🌊 Normale | 🟢 Terminé

Nice canyon. Nice cuts, even if only short - great rock. Lots of groups on the way. The "upper parking lot" makes little sense - unnecessary additional walking. The middle parking lot or the one at the mine is ideal. (traduction alternative)

Actually quite interesting to observe the arousal. At least 6 groups before, after and during the tour... 📖 (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Fournel Joli petit canyon énormément parcouru par les guidos !Les sauts passent globalement mais amortir sur certain car pas beaucoup de fond (notamment celui avec de l'équipement via ferrata rg). (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/276/observations.html>)

2025-07-27 | Gaechter Michael | ⭐⭐ |📖⭐⭐⭐|📍⭐⭐⭐|🌊 Faible | 🟢 Terminé

Well equipped for groups (traduction alternative)

2025-07-22 | Kanyon Kerke | ⭐⭐⭐⭐ |📖⭐⭐⭐|📍⭐⭐⭐|🌊 Haut | 🟢 Terminé

Superiore tour with lots of slides and jumping opportunities. Perfectly equipped. (traduction alternative)

Normal water flow. No special remarks. Please note, enter the canyon after 9:00 and exit before 18:00. At the upper start point next to the bridge there is a waterpoint to fill up your water bottle.
