| <b>Retour:</b> (traduction alternative)<br>If the Cordevole river is in flood, leave the river at the bridge at 560 meters and take the path on the left to the mines of Val Imperina. Open terrain, at least in the upper section. A few pools, but nothing spectacular. Of local interest. (traduction alternative)   |   |                                      |
