Résumé: (traduction alternative) Forest canyon with interesting passages		
Hydrologie:		
Accès: (traduction alternative) Take the A1 (via Milan) or the A 21 (via Brescia) to Piacenza (southern exit). Take a bypass around the town to the south, then take the SS 45 through the Val di Trebbia via Bobbio to Marsaglia. Before the bridge, turn left onto the SP 586 ('Chiavari'). Park a car in the parking lot in the bends at km 8. At km 12 - Ruffinati - turn right over a bridge and up a narrow, winding asphalt road to Lisore and on to a panoramic road at the top (approx. 1050 m). Turn right there and via Selva to Cariseto. Parking available in the village.		
Approche: (traduction alternative) Continue on the road for about 100 m, then take a dirt road down to the right. After about another 100 m the path branches. Here the dirt road straight down. The path becomes a trail and enters the forest. After a few more 100 m it becomes almost flat. Here go down to the left to the entry into the stream. There is a path across the creek, the bridge is obviously washed away. About 50 m further down on the left bank are the remains of the walls of a former mill		
Tour: (traduction alternative) The relatively open forest canyon has 26 rappels, a few jumps and slides. In the last quarter it stretches through washed out rock without any major drops and here loses its character as a 'pebble' and rappel canyon.		
Retour: (traduction alternative) You follow the stream until its mouth in the Aveto, which you wade through (attention: danger of water rise due to lock opening!). On the other side is the parking lot where you left the first car.
