Accès:

Approche: (traduction alternative)
From the car about 50m further in the direction of Iseltwald, then turn right onto the road, which is closed to motor vehicles. Under the highway we go uphill. We cross "our" stream, have a view of the last waterfall and turn right about 600m further on the hiking trail to Schwand. A few meters after (!) the third (left) serpentine we take the intersecting path, which leaves at a sharp angle to the right and leads approximately horizontally to the entry.

Tour: (traduction alternative)
Around 15 rappel, the 30m drop at the beginning can be challenging if the water flow is adequate.

Retour: (traduction alternative)
After the final 30m waterfall left out onto the path and this down to the road. This again down to the lake and to the car.

The trail has very good traction right now. All the anchors are in good condition. In the upper section, the anchors are a bit worn. There’s some wood in the canyon, but it’s easy to get around and doesn’t get in the way. (traduction alternative)

Very grippy to walk. A little wood in the gorge, but it does not bother. We needed for the approach 1h30min. The locations of the belays are partly chosen strangely. The quality of the hooks is ok. The two C30 have two hooks each. (traduction alternative)
