Résumé: (traduction alternative)
Open canyon with some high abseils. Thanks to many escape routes and few water/rope difficulties, it is also suitable for beginners, but you should bear in mind that there is a weir above the canyon. Popular and often climbed.

Hydrologie: (traduction alternative)
ATTENTION! FLOOD WAVE ! After prolonged and heavy rain, the automatic flap in the Wienerbruck dam may open! It is essential to check before the tour whether the water level is approx. 1.5m below the flap (recommendation from a power station employee), or call the power station directly. Contact: https://www.mostviertel.at/alle-ausflugsziele/a-kraftwerk-wienerbruck.

Accès: (traduction alternative)
Coming from Mariazell take the main road in the direction of St. Pölten until you reach Wienerbruck. In the village drive to the parking lot at the reservoir (signs: Ötschergräben).

Approche: (traduction alternative)
Follow the hiking trail in the direction of Lassingfall until you reach the confluence of a water-bearing ditch from the left (the canyon turns east here). In this ditch quite steeply up until you meet a forest road, which you follow in an easterly direction. At a fork, follow the forest road leading down to the entry in the Kienbach.\nIf you want to do without the rappel in the Kienbach, stay on the marked hiking trail for a bit to descend above a 4m jump into the streambed.

Tour: (traduction alternative)
At the Kienbach 2 rappel (10m, 25m), secured with tree slings. In the Lassingfall then another beautiful 5m possible jumps before the long abseil begins after the bridge of the hiking trail. Due to the sunny location, the rock is partly very slippery. The last big step can be done with one rappel (70m) or two rappels (40m, 25m). The belaystation for the second variant is located on the sloping slabs to the right of the waterfall (be careful in case of rain) \nThe tour ends with a 3m jump at the bridge before the exit into the Erlauf.

Retour: (traduction alternative)
Follow the hiking trail along the Lassingfall to the parking lot.

First fixed rope in the Kienbach has been replaced; everything's fine in the Lassingbach—low water level (traduction alternative)

2026-06-19 | Georg Rudelstorfer | ☆ ☆ ☆ |🕮 ★ ★ ★ |⚓ ★ ★ ★ | ≋ Faible | 👍 Terminé
There are a few fixed ropes at the start (they should be replaced); they're well secured and everything is in top shape (traduction alternative)

According to the latest information from the Wienerbruck waterworks, the reservoir is over - no recommendation for canyoning for the next 14 days! So until approx. 20.7.2025 (traduction alternative)

2025-04-27 | Patrick Daxböck | ☆ ☆ ☆ ☆ |🕮 ★ ★ ★ |⚓ ★ | ≋ Normale | 👍 Terminé
Some fixed ropes need to be replaced, but this is already being planned. (traduction alternative)

2024-06-20 | Bernhard | ☆ ☆ |🕮 ★ ★ ★ |⚓ ★ ★ ★ | ≋ Faible | 👍 Terminé
Nice canyon-everything in good condition (traduction alternative)

2023-09-23 | Aja | ☆ ☆ ☆ |🕮 ★ ★ ★ |⚓ ★ ★ ★ | ≋ Normale | 👍 Terminé
Relatively long canyon, open and sunny. ATTENTION! FLOOD WAVE ! After prolonged and heavy rain, the automatic flap in Wienerbruck dam can open! Be sure to check before the tour whether the water level is approx. 1.5m below the flap (recommendation from an employee of the power station), or call the power station directly.
