<b>Résumé:</b> (traduction alternative) Pure rappel canyon		
<b>Hydrologie:</b>		
<b>Accès:</b> (traduction alternative) Coming from Storo on the SP 69 we go for 3 km in the direction of Baitone-Bondone. After the Km stone 2/VIII (right Moto-Cross) the stream flows under the road. There you can park a car for the return trip directly at the streambed. A little further on, a very narrow, paved little road leads up the mountain on the left in many narrow turns. After a good 2 km you have reached a bridge, where you look for a suitable place for the upper car.		
<b>Approche:</b> (traduction alternative) Just below the bridge.		
<b>Tour:</b> (traduction alternative) Initially quite open, later increasingly incised, a sequence of 11 rappels		
<b>Retour:</b> (traduction alternative) From the last waterfall down to the right along the stream to the car.

2 cars recommended, walking up is not worth it. Simple abseilcanyon, super slippery despite recent rain, in lack of aesthetics apart from waterfalls & valley views. Reinstated one original line in the active (on a granite boulder instead of the cracked rock of the other line), but most anchors are as said, a mix of rusty chains & webbing on trees.

Not a canyon of much interest but a good option during wet periods while other canyons are off limits. Anchors are rusty but still ok, some anchors tied on trees.

As part of the canyon guide training, the waterfall (18m, left) above the bridge at the entrance was set up with simple bolted hooks (see photo) Otherwise, the canyon is as described: some walking passages and shorter rappels, then two larger rappels at the end. (traduction alternative)
