Résumé: (traduction alternative)
Alpine rappel canyon, south-facing. It has 2 parts of different character. The upper one described here is largely open, with repeated runs between the rappels, the lower one is narrowly incised. There is a relatively large amount of deadwood in both parts.

Hydrologie:

Accès: (traduction alternative)
The starting point is the village of Griesen in the Loisach Valley on the Garmisch-Partenkirchen - Ehrwald/Lermoos connecting road. The village is located about 1200m northeast of the German-Austrian border. Parking is possible on both sides of the bridge.

Approche: (traduction alternative)
We start east of the bridge over the Neidernach, which flows into the Loisach a few meters below. We take the forest road on the orographic left bank of the Neidernach and hike upstream, past a field chapel. We cross the Nudelgraben and the Sunkenlaine. 1000m after the start of the path and 140m after crossing the Sunkenlaine, we turn right (signpost "Schellschlicht"). We follow the path, which later becomes a path, uphill. At 950m above sea level, the path branches off. Turn left (signpost "Schellalm"-"251") and in a few meters you reach the footbridge over the Schellaine. Here would be the lower access (see Schellaine inferiore).
If you want to do the integral ascent or the upper part alone, take the right branch ("252") upwards at the fork in the path. We then cross the slope above the Schellaine in a northerly direction, first in serpentines upwards, and then again in serpentines up to about 1320m above sea level. Here we can cross to the left into a side cirque of the Schellaine, where the descent begins.
However, it is worth ascending a little further here and then crossing into the next cirque at about the same altitude to start the descent in the stream.

Tour: (traduction alternative)
First some rappels, then also running sections, before the rappels increase again. At the narrow sections there is always blocked dead wood. At 1010m above sea level, there is an exit on the right before the 2nd part.
For the following lower parts see under Schellaine inferiore.

Retour: (traduction alternative)
If we want to get out after the upper part, cross out to the right on the steep slope, which is a bit tricky in places, cross the bridge to the left and down the access path, then take the slope back to the parking lot.

Due to the high water level, we set some hooks in the upper part. (Steps were not climbable). Very much deadwood in the lower part. Do not pull off rope prematurely. Sometimes you have to abseil several steps at a time. (traduction alternative)
