Re-equipped and added new points for unsafe rappels to unclimb with lots of water. Can now be safely traversed. High flow today from snowmelt, the creek changes face and some rappels become interesting, overall it is worth to travel it with this flow. Thanks to Paul and Pierluca for the day! Found this canyon recently "bolted"... not the best decision, the first two waterfalls are not bolted so a risky "dead tree" abseil is necessary, then some more abseils but nothing so interesting (traduction alternative)

Canyon not very beautiful, if there was more water it would already be more interesting, the first part is not equipped (traduction alternative)
