Nice short canyon; we rebolted the start, so it’s now possible to rappel from one side of the bridge in the canyon to add an extra rappel. After the first section, it’s now possible to cross over the water; we rebolted the second rappel and also cleared away a lot of fallen trees. The exit is still a bit unclear, but there is a path on the left bank of the river past a stone man. (traduction alternative)
