Did it today with two families—ages 14 and 9—and everything went smoothly. On a small slide, I recently installed a 10-strand rescue sling; back then, even I found it went almost too fast. It’s better to install a hand rope there instead. (traduction alternative)

Fitted a new 10 lug with ring to the C30. Explored this canyon to see if it is suitable for my son 9 years old. Perfect for us. (traduction alternative)

It was actually planned as a first ascent, but we found two generations of belaying material in the canyon - old, rusty self-made expansion bolts and more recent multimonti bolts with chain links. The gorge itself is nice and sunny, the rock beautifully washed out. It was cold, snow and sun alternated. 3 additional anchors set. (traduction alternative)
