Résumé: (traduction alternative) Initially incised but still sunny canyon, then succession of waterfalls in the more open terrain.		
Hydrologie:		
Accès: (traduction alternative) A23 until Pontebba exit. Go down the Canal Valley to Chiusaforte. Before reaching the village, turn left into the Raccolana Valley. Follow the road through a tunnel and continue until you see a transformer station on the left. Then cross the bridge and about 50m after that you will find a small parking area on the Rio Ravis (next to it there is a small concrete building of unknown purpose). If you cross the Raccolana a second time you have gone too far.		
Approche: (traduction alternative) At the parking lot there is a thin but clear climb that leads steeply uphill between Rio Ravis and Rio Costa Stretta. Just before the entry into the Rio Ravis cross right towards Costastretta. Just before reaching the streambed, turn left uphill and cross under the walls until you can descend into the streambed. Alternatively, you can briefly follow a serpentine trail downhill and reach the canyon under a waterfall of about 30m over a grassy band.		
Tour: (traduction alternative) First in narrow but sunny gorge over several rappel down to 27m. Fuses were already in need of renovation in 2018. In the open part afterwards three more rappel before you are back on the road. There are a few mini slides and one low possible jumps. \n		
Retour: (traduction alternative) Shortly up the road to the parking lot

A beautiful canyon, even more beautiful than the nearby Rio Ravis. The approach trail is the same as for the Rio Ravis; the turnoff is clearly visible, and we made our way under the rocks and across a side ravine to the start of the canyon (about 4 rappels down a 30-meter waterfall). It's worth going all the way to the top. The traverse is then about an hour longer, but the anchors are still relatively okay. (traduction alternative)

2025-07-29 | Péter Bonczi | ★★☆☆ | 📖★★★★ | 📍★★★ | 🌊 Normale | 🍏 Terminé

We entered the canyon as described, but there is also a trail directly to the top of the large 30-metre waterfall. From here there are 2-point chained belays that are in excellent condition. Above the 30 m waterfall are 5 more smaller waterfalls with 1-point stands, 3 of which are no longer in good condition. (traduction alternative)

2025-07-26 | Georg Rudelstorfer | ★★☆☆ | 📖★★★★ | 📍★★★★ | 🌊 Normale | 🍏 Terminé

Well-secured and beautiful canyon that can also be combined with Rio Ravis. Simply follow the same access from Rio Ravis and cross to the right to Costa just before the entry. Then continue upwards to the stream. The last long rappel can also be easily rappelled in one piece (approx. 60m). The belays are well secured (chain with double anchor). (traduction alternative)

On the first three rappels, singles would need to be dubbed and small rapid links replaced. After a few minor rappels the new Austrian chains appear and persist until the exit. Continuous gorge far more challenging (and long) than the Ravis. For the approach, the traverse to the Costa Stretta, just before reaching the Ravis bed, is well-trodden, although it has no blue bolts. After 100 meters of traverse climb steeply to the left in a zig zag, also beaten, and pass a cavern (tributary from right bank Costa Stretta) and then hold the ledge slightly uphill until you reach the bed, the beginning of our descent. Pollution none. (traduction alternative)

2025-05-24 | ViKo | ★★☆☆ | 📖 | 📍★★★ | 🌊 Haut | 🍏 Terminé

New high standard chains on some belays, great choice for a high water level in this area.
