Spécialités:

Matériel:
Cordes: 2x 30m

Résumé:
Fun canyon in gneiss rock with many jumps and tobagan possibilities.

Hydrologie:

Accès:
Reach Cicogna and park in the small parking lot in front of the "Circolo"

Approche:
From the parking area, head towards Pogallo. The trail goes NNE for about 800 meters; at the second junction, follow the signposts for Teggia and Pian Cavallone. Cross the Pogallo Stream at Ponte Borlino. As you ascend, you will pass the ruins of Teggia before finally reaching the stream (entry point).

Tour:
8 to 10 rappels, with several opportunities for sliding and jumping.
There are also some long walking sections in between.

Retour:
Option 1: Exit to the right before reaching the Pogallo. The exact point is marked by a cairn (stone stack) on a big rock. Climb up the slope to rejoin the approach trail, then turn left over the bridge to walk back to Cicogna following the approach trail.
Option 2: Descend the stream all the way to its confluence with the Pogallo river. Climb up a few meters on the opposite bank and reach the approach path that leads to the bridge over the Pogallo. Follow the approach trail back to Cicogna.
Option 3: Continue descending further down into the Pogallo river itself until you reach the next bridge (Ponte Buia), which marks the standard entry point for the Pogallo canyoning section. Follow the trail to Cicogna on your right.

We entered at the confluence with the Pobbie. Everything’s fine—there are pools you can dive into. We added some anchors to the drops that didn’t have any. (traduction alternative)

Cold, crystal-clear water creating pools of incredible colors. We replaced some old chains with new rings. Traveled 3 hours with a group of 10 people. From here we continued with the Pogallo stream to Ponte Casletto. (traduction alternative)

Surprisingly cold water for September. Never very narrow, but the water has a very beautiful color. Some rapids don't have anchors. (traduction alternative)
