Résumé: (traduction alternative) Rappel canyon in gneiss with slide possibilities		
Hydrologie:		
Accès: (traduction alternative) Coming from Domodossala, we leave the A26 at the Gravellona Toce/Verbania exit and go up to Cicogna via Bignugno (see Google aerial photo in photo gallery). Here we park the car.		
Approche: (traduction alternative) We take the path towards Pogallo. The path first goes about 800m towards NNO, then at the second fork we follow the signpost Teggia, Pian Cavellona. A bridge takes us over the Pogallo. In the climb we pass the ruins of Teggia and finally reach the stream (entry).		
Tour: (traduction alternative) 8-10 rappels, some slides and jumps. There are also longer running sections in between. We descend to the confluence with the Pogallo; as an alternative to the exit described here, you can also get out on the right before the confluence with the Pogallo at the remains of a small wall near the stream and climb up the slope to join the approach path at the top. Follow this to the left over the bridge and back to Cicogna. Finally, there is also the option of descending further in the Pogallo. The next bridge is the usual entry point for this canyon tour.		
Retour: (traduction alternative) A little upstream in the Pogallo we cross to the other bank. Here, a few meters up, we come across a path that leads us upstream to the bridge over the Pogallo. From here we return to Cicogna on the approach path.

Cold, crystal-clear water creating pools of incredible colors. We replaced some old chains with new rings. Traveled 3 hours with a group of 10 people. From here we continued with the Pogallo stream to Ponte Casletto. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Marona Équipement un peu aventure avec des monopoint. Belles vasque turquoises, canyon ludique avec des sauts et toboggans. Les sauts peuvent se shunter. Pour la sortie au niveau de la confluence avec le Pogallo continuer en descendant la rivière sur 400m jusqu'à la passerelle du GR. Surprisingly cold water for September. Never very narrow, but the water has a very beautiful color. Some rapids don't have anchors. (traduction alternative)
