**Spécialités:**

**Matériel:**

**Résumé:** (traduction alternative)
rappel canyon

**Hydrologie:**

**Accès:** (traduction alternative)
From Lecco on the new road in Valsassina to Ballabio. From there in western direction and many serpentines up to Piani Resinelli. Cross Piazza della Chiesa and go straight on downhill on a slightly sloping road in the direction of "La Montanina".\nPass the church of La Montanina on the upper left (i.e. south) (so do not follow the third signpost "La Montanina" downhill on the right) and always descend on the bad tarred road until you reach a road extension in Campelli above a rectangular water basin (950 m a.s.l.). Here begins the access on foot.\nNote: In 2012, about 100 meters after the turnoff to the church of La Montanina, the continuation on the private road was closed to motor vehicles with the appropriate traffic sign.

**Approche:** (traduction alternative)
Down to the rectangular water basin and along below it in a northerly direction. Follow the path on the water conduit, cross the Val di Ratti*, continue beyond on the channel until you reach the streambed of the Zerbo.

**Tour:** (traduction alternative)
At the beginning walking and downclimbing, some smaller rappels, until at the confluence with the Val di Ratti begins an almost continuous sequence of rappels, which then ends with the attractive C 53.

**Retour:** (traduction alternative)
After the C 53, continue downhill on the right bank of the stream until you reach a path that crosses to the other side of the stream. On this we go up, meet the road and follow it to the car.

**Coordonnées:**
Départ du Canyon 45.9067 9.3647
Fin du Canyon 45.9045 9.3591
Parking à l'entrée et à la sortie 45.8996 9.3681

Everything was great—Tribute Canyon was dry. But the Main Canyon had water; it was a lovely trip and well worth doing. We walked up from the bottom. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Monastero Nous sommes entré par le ruisseau du Valle Dei Ratti (petit filet d'eau). Marche d'approche très courte 20min jusqu'au pont. La descente du Dei Ratti se compose d'un petit enchaînement de cascades sans marche, 20m maximum jusqu'à la jonction avec le ruisseau du Zerbo.Le débit est alors DC- et on entre dans un encaissement sculté très jolie ou les cascades s'enchaînent en continue jusqu'à la cascade finale C54. Équipement impeccable. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2640/observations.html)

All anchors were in good condition. While we were rappelling down the upper section, the water drain at the top must have been opened. The rappel line was dry. After 10 minutes, there was a very light trickle. After another 15 minutes, the water level hadn’t risen. We then finished the lower section without any problems. Both photos show the water level about 15 minutes apart. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Monastero DC-. Nous sommes passés pas les rappels du valle dei rat. Petit filet d'eau au début avant de rejoindre le cours d'eau principal Zerbo. 15 minutes de marche d'approche depuis le parking amont (2km de route interdite),alt. 980m un peu avant la chapelle. Au parking, une carte vous permet de trouver le chemin le plus rapide pour accéder au départ du val dei rat. Enchaînement des rappels dans un bel encaissement. L'arrivée dans le Zerbo se fait au tout début de l'encaissement. Du coup les rappels s'enchaînent du début jusqu'à la fin. C'est une variante intéressante. La cascade finale est superbe. Automatisch importiert von Descente-Canyon.com für Canyon Monastero Molto vento durante tutta la giornata e quindi il freddo si faceva sentire, soprattutto alla base delle cascate.Armi ok sia val dei Ratti, che Zerbo fino alla parte bassa di 9 calate che finisce a circa 300mslm all'altezza di una briglia che fa uscire sulla dx orografica.Calata da 50 spettacolosa e dopo questa c'è la terza parte inforrata, più acquatica e meno verticale.
