Résumé: (traduction alternative)
Short canyon with fun potential; high rappel to entry.

Hydrologie:

Accès: (traduction alternative)
Either from the direction of Bern, Interlaken or from the direction of Lucerne, Sarnen to Meiringen in the Aare valley. From here we take the road to the Grimsel Pass. After about 14 km (from Meiringen) we pass through the village of Guttannen. 4.9 km further on we pass the entrance to the E-Werk (with compressed air drill monument). From here it is another 2 km to the bridge over the Aare, where the exit from the canyon is. Parking spaces can be found a good 70m before on the left. It is recommended to use the parking spaces on the left side of the road.

Approche: (traduction alternative)
From the parking lot, cross the road in the direction of the old road bridge. From there a narrow path leads up to the bend with the upper parking possibility. Recommendation would be if necessary to shutteln only the material and konditionswache and to park all vehicles below, because the parking possibility in the bend is not large and not optimal. From there you follow the road to the east until you find after about 200m on the right the abseiling point over the slab wall down into the Aare.

Tour: (traduction alternative)
First the entry from the road over the gneiss slabs down into the riverbed. Then walking, downclimb, some jump and slide possibilities. Key points: "hole" and "block jump".
Shortly before the exit there is a zipline (steel rope). By means of tandem, pulley or steel carabiner you can go up to over the pool and thus avoid the also possible risky technical jump.

Retour: (traduction alternative)
After the road bridges left out to the car.

Automatisch importiert von Schlucht.ch für Canyon Grimsel, Wasserstand: "Tief" Verankerungen: "Top" Alles Top, auch abgesehen der fix Installierten Seile von den Kommerziellen Firmen. (kann man gut umgehen/Ignorieren) Zipline zustand gut, ersatz Rolle ist vorhanden. Abklettern dort eher rutschig und unangenehm da gewisse Eisen abgebogen von Steinen. The water was milky and murky, and several spots were quite slippery. Unfortunately, we weren't able to enjoy it as much as we'd hoped. (traduction alternative)

Water completely cloudy from sediment. Some slippery spots. All installations in good condition. The canyon is heavily used commercially. (traduction alternative)

Short pleasure but good for practicing. Can be done several times as it's only a 10-minute access on foot. (traduction alternative)
