Résumé: (traduction alternative)
A short, alpine yet beautifully eroded dolomite gorge between the Kleiner Buchstein and the Großer Buchstein.

Hydrologie:

Accès: (traduction alternative)
From Admont, take the B117 over the Buchauer Sattel. At Griesbauer, turn right onto a sand road and follow it for a short distance to a small parking area just before the forest road begins.

Approche: (traduction alternative)
Cross the bridge and follow Trail 664 toward Sparerriegel/Kleiner Buchstein. First, hike for about 15 minutes along the forest road into the valley floor, then turn left onto another forest road and soon follow a beautiful hiking trail up the forest ridge. You'll briefly return to the forest road before turning right again onto a path. At an elevation of about 920 m, turn right into the mountain forest (trail marker on the right; 10 m further on, a moss-covered boulder with a small cairn; the trail levels out) and cross horizontally toward Griesbach off the trail. The mountain forest is sparse and easy to walk through. After 10 minutes, you'll reach a clearing below several large boulders; cross straight ahead and, on the other side, perform a brief ascent to a salt lick. Below the salt lick, follow a distinct game trail into the canyon, which you'll reach at the base of the Karende.

Everything’s fine so far. A very short but rewarding route, with a really cool four-pitch rappelling sequence near the end. Read the approach directions carefully. At the clearing, start by going slightly uphill to the left of the ridge; later, follow the ridge up to the salt lick, then head down. (traduction alternative)

Water levels are currently good compared to the surrounding canyons. At the start, one portage was added and a few others were improved. Overall, the conditions are very good, and it’s definitely worth the trip! (traduction alternative)

Surprisingly beautiful short tour. Access in the last part is pathless but without obstacles. There may also be a real path into the cirque. The rock is beautifully washed out but also very slippery. (traduction alternative)
