Descended with plenty of flow, we also wanted to descend the lower part but for us the flow was too much. Weapons sometimes a little hard to find and in a little uncomfortable positions. Below are two photos with normal/low flow and on the right when we descended (traduction alternative)

2025-08-18 | Federico | ★★☆☆ | 📖★★ | ⚓★★ | 🌊 Normale | 🍌 Terminé

Presence of strong current in pools, be careful. Long stretches of walking. Some rusty anchors. Muddy water with little flow in second part of canyon. (traduction alternative)

2024-08-09 | Peisen | ★★☆☆ | 📖★★ | ⚓★★ | 🌊 Normale | 🍌 Terminé

New anchors set. Quite long runs. Individual spots nice. Water not a problem in terms of quantity but unfortunately sanded up and cloudy. Went as far as the water outlet with metal bar. Not set up below. The way down to the village can be found on wikilogs. (traduction alternative)
