Résumé: (traduction alternative)
Limestone; in the 1st part partly turbid water due to sandy bottom; from the middle worthwhile; mostly little water, but large catchment area; several rappelling points in the watercourse; partly slippery; well equipped; Questionable is the prohibition sign of Vione 2, since outdoor operators also offer the 2nd part; ticket for the 2nd part not necessary; risk of burglary at the parking entry.

Hydrologie:

Accès: (traduction alternative)
From Torbole, take the "SS45bis" through Riva and Limone to "Prato della Fama". Here you park the shuttle car if you take the Johanna 2 (Vione 2) (parking possibilities next to the road or at the small harbor in front of the tunnel. €5,- day parking ticket)). With the 2nd car, continue through the long tunnel and turn right towards Tignale. From here, follow the mountain road for approx. 5 km, which then meets a bridge (exit Vione 1 or entry Vione 2). It is better to park your car in the direction of Piovere after the first hairpin bend at a turnout due to the risk of burglary. To walk the entire canyon (Vione 1+2), drive up towards Piovere as far as the 2nd hairpin bend. Here you follow the poorly asphalted road 252 (marked on the stone) right up to hiking trail 265 Tignale-Aer. Limited parking at the left bend at 460Hm.

Approche: (traduction alternative)
At a parking bay approx. 150m below the road bridge, a trail leads into the streambed. You reach the canyon above a scree dam.

Tour: (traduction alternative)
The first half of the tour is a forest gorge in layered limestone, with many walking passages and short abseils and is not yet very convincing. Only from the middle does the canyon become more continuous and worthwhile. Here, several abseils (some of them jumpable) follow one another without a long route. The highlight of the tour is the 50m rappel. This is best rappelled from the left. The right-hand belay is difficult to reach. This is followed by a short step and a walking passages before the stream flows into Lake Garda (65m). Bar at the bottom.

Retour: (traduction alternative)
Arrived at the lake (65Hm)go back to the parking lot on the left.

A beautiful, deeply carved canyon. Offers some great slides and jumps. Caution: Check all pools beforehand—not all have enough depth, or there may be wood underwater. The bolts are generally in good condition. However, at the last high belay station (50 m), there is a chain anchor on the left with three bolts. Only one of them is reliable. The two rusty, loose bolts should be replaced. (traduction alternative)

A little gem among water slides, featuring a magnificent final gorge section. Short, but worth it. Apparently forbidden... but who knows...? Caution: Check all pools beforehand—not all have enough depth, or there may be wood underwater. The bolts are generally in good condition. However, at the last high belay station (50 m), there is a chain anchor on the left with three bolts. Only one of them is reliable. The two rusty, loose bolts should be replaced.

AIC meeting 2026 Done upper and lower part, leaving the lower car in the paid parking of Porto del Tignale and the upper car at the end of via Castagneto in Aer, where the road from paved turns to unpaved, with a stop on the way up to Tignale tourist infopoint to pay the 2€/person mandatory fee and exposing the receipt on the parked car. Low flow, all the anchor points in order. The best part is the lower one where the canyon becomes narrow.

There's hardly any running water left, but the pools are still okay. If there were more water, I'd probably give it 4 stars. All the anchors are fine, too. When you reach the high rappel point, check the quick link. It was half-open and has now been tightened securely. (traduction alternative)

Always beautifull canyon. Everything wonderdull, anchors all good, jumps and alides all possible. Used 1 car, walked up after the canyon using the approach of baes 40 mins to car. (traduction alternative)

All the equipment is fine. The water was extremely clean and the rocks were not slippery. There is a sign on the bridge that the canyon is prohibited from the end of September to the first of April (I think it said that the lower canyon is prohibited but they walk it anyway because I saw footprints). The fine is 50 euros. Parking down by the lake costs 2 euros per hour.

Anchors all in order. At the intermediate stand (50m) make sure that you take the orographically rightmost stand and not the one a little further to the left with 2 rusty anchors and a relatively new 8mm hook (danger of falling) see photo (traduction alternative)

We were in a large group of 13 people and it took us a total of 4 hours. We were able to park three cars in the parking bay described. Overall everything was great. (traduction alternative)

Vione 3 solo. From the harbor 45 min access. At the exit at the roadside a bit annoying but ok. 1h45 in the canyon. Many beautiful slides and jumps. Caution! Be sure to check the water depth. If it doesn't look deep, it isn't. Some of the pools are deceptively dark. Gets more and more beautiful at the bottom. Anchor tiptop (traduction alternative)

After a high flood, the rocks are currently super grippy! Lots of fixed material damaged, but metal points still fine. Murky water makes jumping difficult. Super beautiful and diverse rock during the descent, and an old archway on the left side early on. Very cool.
