Résumé: (traduction alternative)
Open hiking and rappel canyon

Hydrologie:

Accès: (traduction alternative)
From the coastal road SS114 (Messina-Taormina) turn off at San Franzesco di Paola onto the SP12 inland towards Antillo - see https://www.google.com/maps/dir/37.9316965,15.3524887/37.9570022,15.2725009/@37.9536578,15.2678268,1611m/dat
After the bridge over the Agro, park your car on the right in front of the house.
For a possible realization see map and photo gallery

Approche: (traduction alternative)
see photo gallery - you reach the river at the confluence of the two headwater streams and can then walk uphill a little in the orographic left-hand stream.

Tour: (traduction alternative)
See video - the first short rappel with the bad anchors can be bypassed on the right; at the 20m waterfall on the top left, it is easy to change over. For rappels in the stream of the waterfall, chain anchor on the boulder in the middle.

Retour: (traduction alternative)
Before the bridge, turn left up the gravel gully and then a few meters steeply uphill to the old road, left on this and up to the new road. Turn right there to the car.

Forra Laudani Very short but beautiful canyon. The stream later flows into the Gole Aranciara. From Limina, follow the wide road to the exit of the asphalt 37°56.72708'N, 15°15.22607'E. Park here or continue for another 3 km if your car can take it and paint scratches are not a problem. Before the large bridge at the break in the wall 37°55.92842'N, 15°14.03908'E, descend in a hairpin bend to a kind of ford (entry) 37°55.96077'N, 15°14.01772'E. This is followed by some short chutes and steps that are well equipped with anchors. Then comes the highlight of the canyon, the 10 m rappel in the waterline. If the water pressure is too high, you can rappel directly into the pool to the right of a somewhat hidden sling on a clamping block. Another small step follows and you slide through a chute into the last pool 37°56.07888'N, 15°14.04236'E. Climb up a small side stream on the left and up the steep slope to reach the entry point along the canyon in a few minutes. Without sufficient water, the canyon is rather uninteresting. Superiore equipment Several exit options a3v2III Under the bridge there is a pool with a swimming area where you can also make a small jump. Otherwise the pools are too shallow for jumping. Track at Wikiloc (traduction alternative)
