2 fantastic short canyons with great waterfalls. Stands ok. Top water level (traduction alternative)

2025-05-01 | Joey CIA | ☆ ☆ ½ |🕮 |⚓ ★ | ≋ Normale | 👍 Terminé
Access and topographic view as in the book Canyoning Albania. During our ascent, the water was rather murky due to the clayey soil and very slippery in places. 1st rappel from the tree then well set up. Short tour that ends in the Osumi River. Water check! Osumi River! Float through the Osumi River to the return point, alternating with walking passages. Can be combined well with Prishtes. I would recommend the Bigasit first and then Prishtes - a great canyoning day! (traduction alternative)

Unfortunately very little water, but still beautiful, even if very short. (traduction alternative)
