Résumé: (traduction alternative)
Short rappel canyon, best in spring because of the water flow

Hydrologie:

Accès: (traduction alternative)
How to get to Baccu Ois: From Nuoro, do not go directly on the old SP 389 (southwestward), but follow the corresponding signs ('Lanusei') first on the southern bypass of Nuoro, on this 5 km westward, to then change to the new road to Lanusei. After 53 km (from leaving the bypass) you pass the village of Villanova Strisáili, slightly off to the left. A few kilometers further on, the road ends at the SP27 coming from the left in the direction of Villagrande-Strisali. Continue first on the old SS389 to the root of the Lago Alto del Flumendosa dam and to the Riu Sicaderba. Now turn right off the SP389, cross the river on a bridge and cross a railroad track near the Villagrande Strisali station (on the left). Then it crosses the railroad track again. A few meters later, the road to Canyon Riu e Forru turns off to the right. We stay on the main road and continue towards Taquisara. 4.6 km after turning off the SS389, a dirt road goes off to the left. We continue on this road in a southerly direction. We ignore a track on the left. Our track turns off after 1.6 km. Here we park the car.\n\nIf we have a car suitable for the following track in southeastern direction (e.g. 4x4), we can drive on this track to the entry.

Approche: (traduction alternative)
So we take the track that leads slightly uphill in southeastern direction. After a good 550m this track crosses the rocky stream channel of the Baccu Ois. Here we enter the path. (00h 15') . Continuing for another 1350m we are on the slope above the Baccu Farrucciu. Here we can climb.

Tour: (traduction alternative)
First it goes down into a chute (C7 - C22). Then the open 55m rappel. At its foot, the descent is also already finished.

Retour: (traduction alternative)
Right up to the approach path and back to the car or to the entry to the Baccu Ois.
