Résumé: (traduction alternative) Very watery canyon which is one of the long and hard tours in Ticino. Some jumps and slides. Not for beginners.		
Hydrologie:		
Accès: (traduction alternative) From Locarno, drive into the beautiful Maggia Valley --> take the main road through several small villages (watch out for speed cameras!) until you reach the village of Someo. In the village of Riveo, take the first real road "la Geira" to the left. Park at the exit of the road (theoretically you can also drive through the Maggia with a 4x4).		
Approche: (traduction alternative) From the parking lot, follow the path to the left through the Maggia. Keep to the slope, then follow the signpost to the Alzasca hut and follow the path to the bridge. This is the entry point, before climbing up to the water catchment and checking the water level in the stream. Return to the path and continue steeply uphill. At the waypoint (crossroads), follow the left-hand path which crosses the valley less steeply. Waypoint 2 is a bridge over the stream. At waypoint 3 (Häußer) turn right downhill towards the stream (keep slightly left).		
Tour: (traduction alternative) Water level should be low for this tour. Do not enter if rain is in the forecast. Waterfalls, slides and jumps, everything a good tour needs. No easy emergency exits. The narrowest narrow section after approx. 2/3 of the tour can be bypassed on the left, but you should not rely on this alternative (for this, climb the R6 which is the entry to the narrow section and bypass it on the left).		
Retour: (traduction alternative) Get out at the water intake on the left and follow the path into the valley, cross the Maggia and return to the car.

Descended twice this week, first by a Hispanic group and yesterday by an Italian group. (traduction alternative)

Wow it's really a creek not to be missed, of course it's difficult there are along some bottlenecks to face in opposition between the walls to avoid the flow channeling too strongly... passage waterfall arch bellissima and also a succession of cascades further on. TOP canyon (traduction alternative)
