Automatisch importiert von Descente-Canyon.com für Canyon Sorico Late in the afternoon, after checking a few canyons that were not possible because of the heavy rain of the last days. Minimalistic anchors and sometimes on a wired place.If there would be less rubbish and less fallen trees the canyon would be a lot more interesting. Un canyon qui pourrait être joli mais les intestins laissés en décoration et le bois gâchent un peu l'atmosphère. Les ancrages sont vieux, se méfier cependant. Vers la fin, à partir de la cascade de Sorico les ancrages se font rares, on a un peu improvisé..

At the exit of the first rappel, tree trunk with root and branches, intermediate stand due to brown algae and formerly existing, now missing knot sling not safely accessible, we orographic right with 60 meters rope past. We couldn't collect the carpet, drinks crates and all the plastic bags□□Luckily we didn't see any dead animals. (traduction alternative)

Alternative in case of rain. Water level safe. The stands are generally okay, one stand is relatively difficult to reach and there is a risk of falling if the rock is very slippery. Unfortunately a lot of garbage in the canyon (animal carcasses in plastic bags, etc.)! (traduction alternative)
