Automatisch importiert von Descente-Canyon.com für Canyon Valmola Combo with Val Tur and Valcosenz on a bad weather day. Has the potential to be nice, but unfortunately to much debris. The odors of the dumped dead animal remains where a less pleasant suprise... (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22478/observations.html)

Anchoring good throughout. We had a rope jam on a tree. It is a good idea to bring some old ropes with you and set up a stand on the tree. Very scenic in the fall. (traduction alternative)

Compared to our visit 2 years ago, the "wow" effect of that time was missing. In 2023 we admired the rock, today we were more disgusted by the garbage and the stinking water, also because of a dead animal in the water. The quality of the anchors is much better than 2 years ago - but still not perfect. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Valmola Fait après une nuit et une matinée de pluies intenses.Equipement en bon état et au bon endroit.Bel enchainement de rappels et chouette 25m. Attention au rappel de corde dans la grande, un tronc bloque la corde.Super avec ce débit.30mm de pluies sur le massif, journée sauvetage avec valcosenz et val tur à coté. Some of the anchors could be replaced, as they already look very worn, but are still functional. A lot of wood in the canyon at the moment. (traduction alternative)
