Résumé: (traduction alternative)
Rappel canyon in rugged terrain

Hydrologie:

Accès: (traduction alternative)
From St. Johann/Tyrol 13.5 km on the 312 in the direction of Lofer, then turn right to Waidring and continue south in the direction of Pillersee. About 4 km after Waldring - before reaching the Pillersee - the road crosses to the right over the river. Immediately before the bridge on the left a larger parking lot, costs 2€/day (as of 06/18) - park your car here (820 m above sea level). \nAccessible also from Kössen or Bad Reichenhall via Lofer.

Approche: (traduction alternative)
Follow the sign Teufelsklamm (Devil's Gorge) up the forest road for about 40 minutes in a southeasterly direction until a short and pleasant access to the streambed opens up on the left (1040 m above sea level).\nGood to combine (on one day) with the short Taxabach.

Tour: (traduction alternative)
Largely open, some narrows, some rappel over bedload barriers. The stream is also used commercially, which is why the facilities are optimized (2011).\nGood to combine (in one day) with the short Taxabach.

Retour: (traduction alternative)
After the last two bedload barriers, exit to the left.

Took a school class on this hike; water level was very low. A lot of gravel. Otherwise, it was okay. (traduction alternative)

Started at the bridge for the lower section. All the anchors were in good condition. The rock had decent grip. None of the pools were jumpable! (traduction alternative)

Entry at bridge. All anchors checked and in good condition. About 100 m after the bridge downstream there is a water drainage to about the Flying Fox. (traduction alternative)

Took the upper entry. Some anchors bounced down (from the high water) but each stand has at least one usable anchor. (traduction alternative)

Everything ok! Boarded from the wooden bridge with school class. So far everything passes! Low water level despite the rain! (traduction alternative)

After about 12 minutes of access, do not follow the signs to Teufelsklamm, but stay on the forest path. All belays ok (traduction alternative)

Decent water level after the rain, lower part accessible from the bridge. Pretty much covered in gravel. All ok (traduction alternative)

The lower part is, for my taste, way too commercialized. Steel ziplines and other stuff all over the place.

Only made the lower part, at the wooden bridge! Good water flow! No problems! Installations all in order. (traduction alternative)
