Cordes: 2x 30m

Résumé: (traduction alternative)

Upper part of an aquatic rappel canyon with some possible jumps.

Hydrologie:

Accès: (traduction alternative)

From Cannobio on Lake Maggiore up the valley of the Cannobino for 9km in the direction of Malesco, Domodossola. In the hamlet of Ponte Falmenta park a car for the exit, if you plan to climb the Tegral. Otherwise, go straight up, past the houses of Falmenta, to the large parking lot in front of the village of Crealla. Park here.

Approche: (traduction alternative)

From the car we take the mule track that goes up to the houses of Doro (730m altitude). There we stop at a junction where it would go left to the stream and the entry to the lower part, up to the right. At about 1000m altitude we arrive at the houses of Lavé. The path now bends to the west and soon it crosses the stream (entry). According to the map material available to me, there are indications that this is an orographic left side stream of the Crealla.

Tour: (traduction alternative)

About 17 rappels, some possible jumps, then you come to the bridge where the entry to the lower part is (700m altitude). Here you can finish the upper part and get off. Alternatively, you can continue to the next bridge (about 500m altitude). A further descent is equivalent to an integral ascent.

Retour: (traduction alternative)

In both cases (exit at 700m or 500m altitude) the path leads down to the left to the village of Crealla.

Rapports:

2025-07-06 | Andrea Serra | ★★★★★ | 📖 | ⚓ ★ | 🌊 Haut | 👍 Terminé

Very nice canyon with sequences of vertical also technical, the environment is super wild, very similar to Val grande... really to do, only thing a little attention is slippery, anchors are not the best (traduction alternative)

2024-06-09 | Johnnie | ★★★★★ | 📖 | ⚓ ★★ | 🌊 Haut | 👍 Terminé

Extremely slippery, long walking passages. Often only one anchor point, but good quality. Took 5 hours for superiore and inferiore with 95 meters of ropes. (traduction alternative)
