Open canyon that catches water surprisingly well but without real sportive of technical interest. To be combined with viewpoint Salto del Cabrero (after the canyon) of nearby Sima Villaluenga or Sima Republicano (caves).

Catches water surprisingly fast, but dries out too.

First part (2 abseils and open riverbed) is optional, but given the minimal length of the canyon it is recommended to complete the descent.

Water flow was still consistent after rainfall some days ago. Well protected from wind. Easy, open canyon, lots of escape possibilities, optional abseils, or options from trees to avoid certain pools. Slippery at times. Combined with Sima de Villaluenga and Cheesefactory Payoyo in the day.
