Automatisch importiert von Descente-Canyon.com für Canyon Frio Tout ok ras, beaucoup de guides mais très sympas (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22276/observations.html)

Longer and colder than expected... The anchor at the top of the initializing big one is a free-hanging sort making it rather uncomfortable. The second half is an adventure park with lots of exiting options, nevertheless, we hardly spotted the last one before the road hairpin. Look for carved steps here on the right.

Automatisch importiert von Descente-Canyon.com für Canyon Frio Canyon ludique et beau. La nature sauvage reprenant ses droits par endroit. Bien équipé. Marche d’approche et de retour super facile. Les parkings sont bien placés, mais courage pour trouver de la place.Team K-Net Nico, Dim, Lio & Geo (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22276/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Frio Un tres beau canyon. Si on le fait sans la grande cascade d´entrée de 45 m, le Frio est aussi parfait pour l´initiation. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22276/observations.html)

The canyon is commercially accessible in the lower section (after the 50) and is very well secured. The water was clear, but quite cold. The 50 rappel already had some pressure when rappelling in the water jet. (traduction alternative)

After heavy rainfall at night with a sporty flow, but easily doable. No turning pools. Do not check the water level directly at the exit at the dam! There is an inflow directly above (approx. 30%). Check the water level at the bridge as described. The first high waterfall at the access can be seen very well from the road. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Frio There is very little water flowing. The gorge is partly dry. You can go around a pool that is no longer so clear on the left. After the bridge there was a muddy pond, so we got out there. Still a nice tour. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22276/observations.html)

Very low water level, dry in between and clear pools up to the bridge. Colorful and varied canyon. We bypassed the first pool after the C50 on the left as the water was not clear. The pool after the bridge was even dirtier. That's where we got out. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Frio Un des rares jours de soleil à Ribeiro Frio. Une descente magnifique. Peu d'eau, des bassins cristallins, de la roche qui accroche. Fortement recommandé, malheureusement le Frio sera à sec dans une ou deux semaines. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22276/observations.html)
