Résumé: (traduction alternative) Quite short, but above all scenically attractive canyon in layered limestone		
Hydrologie:		
Accès: (traduction alternative) from Çorovoda at the Osumi river to the parking lot exit see route on google maps under links, also for the conversion to P entry		
Approche: (traduction alternative) From the bridge on the left edge of the stream, rope 15m downstream and onto the streambed.		
Tour: (traduction alternative) First a few smaller rappels in Blezenckë, then the two higher steps down into the Osumi river. The last step is also called the "waterfall of love". In the Osumi River then about 450m down, see photo album and video under Links.		
Retour: (traduction alternative) Exit after rock slabs at a sandy bank on the right. You come to a path that initially goes right up the slope. At a fork, turn left and you come to the picnic area and the car. Short tour with cool jumps and a fantastic final waterfall. (traduction alternative)

Nice tour with quite pleasant water temperature. Stands all ok. Super final waterfall (Waterfall of Love) which leads into the Osumi River. Check the water level here. On our ascent it was low, so you could easily float or walk to the exit point. Combined with Bigasit, a great day of canyoning! (traduction alternative)

Short but very beautiful. The arrival between the massive walls of the osumi river and the short passage to the exit are well worth it. Water level in the osumi river is low. (traduction alternative)

Unfortunately very little water. Only a pair of neoprene pants will do.... Nevertheless, even though the tour is very short, we really enjoyed it. (traduction alternative)
