Résumé: (traduction alternative)
rappel canyon

Hydrologie:

Accès: (traduction alternative)
30 km reparking required! It is often extremely foggy on the Plato, so you should allow about 1 hour in each direction for the 30 km parking change.

Approche: (traduction alternative)
A few minutes' walk from the car in a northerly direction on the wide hiking trail. Then follow the course of the stream. Very overgrown for a short stretch.

Tour: (traduction alternative)
Long rappel canyon with some challenging downclimbs, especially when there is a lot of water.

Retour: (traduction alternative)
There are numerous options. As various canyons begin at the exit of Sexial Superiore, which are otherwise only accessible via an arduous access route, it is advisable to continue via one of the many canyons, e.g. via Vimieiro.

Very varied canyon with a few jumps. Anchors are in good condition. We went through the streambed during access as we couldn't find the way. (traduction alternative)

Very nice canyon. Anchor points mostly OK. In places tricky downclimbs with lots of water due to lack of anchor points. At the exit of Seixal Sup there are various canyons for the further descent into the valley. Overall, this results in a very long tour. (traduction alternative)

No water flows through 2/3 of the canyon, unfortunately the pools no longer have such clear water. At the 7m slide, the water level is so deep that you can't get out of the pool. Here you have to climb around to the right orographic. Seixal superiore is not our favorite gorge in Madeira... way too much walking... (traduction alternative)
