Pays: France Région: Occitanie Sous-région: Pyrénées-Orientales Ville: Prades		
Difficulté: un peu difficile	Niveau: v3 a4 III	Temps total: 3h
Temps approche: 35min	Temps tour: 2h	Temps de retour: 25min
Altitude d'entrée: 670m	Altitude de sortie: 500m	Altitude du delta: 170m
Longueur du canyon: 650m	Rapelle le plus haut: 15m	Nombre de rapelles: 15
Transport: à pied	Type de roche: gneiss	Zone de prise d'eau: km ²
Saison:	Orientation: Nord	Meilleur moment:
Évaluation: ★ 4.2 (9)	Info: ★ 2.6 (5)	Belay: ★ 2.7 (6)
Spécialités:		
Matériel: Cordes: 2x20m (1x40m)		
Résumé: (traduction alternative) Very varied fun tour; little rope use; countless jumps and slides; highlight T16; slippery smooth gneiss rock; dark deep pools; many short swimming passages; very aquatic canyon; with a lot of water, individual passages can be dangerous; in the high season, plan for waiting times.		
Hydrologie:		
Accès: (traduction alternative) From the town of Prades direction Perpignan (N116) --> at the turnoff (traffic circle) right direction Villerach on the D24b drive up through small village Villerach --> first asphalt then gravel road to the large parking lot (Colle De Forn) --> here you usually share the parking lot with many canyoneers --> about 740Hm.		
Approche: (traduction alternative) From the large parking lot, follow the gravel road until you come to a signposted (left) parking lot --> continue for about 100m to the next strong (right) bend --> from here it goes steeply down to a ruin --> pass the ruin on the left (small yellow signs) --> then keep left until you reach the streambed (blue markings on the trees) (entry altitude approx. 670Hm).		
Tour: (traduction alternative) This canyon is very beautiful but has dark pools and many slippery places, at the beginning small walking passages --> then follow countless toboggans that you can easily slide --> the next 2 places you can rappel (2x C14 r.) --> the upper of the 2 rappel you can also slide --> short walking distance --> next slide 8m or li. on the rope traverse to a tree S11 (this place can also be left. T7 --> E3 (r.) --> walking passages with rock windows --> several small slides and climbs in the water (! partly stones in the pool) --> at large boulders jump or rappel (6m) over glued anchors possible (! at much water dangerous current) --> jump or rappel 7m in large pools --> T7 in shallow pools with strong current (at much water r.) --> next slide 8m or r. at the rope railing up to a tree S11 (this place can also be avoided r.) --> T7 --> E3 (r.) --> walking passages with rock windows --> several small slides and climbs in the water (! partly stones in the pool) --> at large boulders jump or rappel (6m) over glued anchors possible (! at much water dangerous current) --> jump or rappel 7m in large pools --> T7 in shallow pools with strong current (! at much water r.) over traverse rope to tree and rappel 12m in big pools --> T4 (C6 left) --> the highlight of the tour is a slide that first goes 4m shallow and then without seeing the landing 11m in free fall in big deep pools (!slide posture with upper body far back) --> S-curve slide in nice washed out rock pool --> several small toboggans for jumping and sliding --> C15 over chain anchor left. (or R15 right) --> T6, T7 --> S7 (left) --> S7 --> at the last listed jumps and slides it is possible to rappel on the right side if there is a lot of water --> before the last jump there is a rope traverse (left) where the pools can be avoided --> after the last small flat slides there is a bigger pool --> the exit is on the left side at about 500Hm.		

Retour: (traduction alternative)

The way to the car is on the left via a very steep path out of the canyon --> at the beginning there is a steel cable, then you follow the blue color markings on the trees or rocks --> after a good 30min you come to the starting point (parking lot).

Automatisch importiert von Descente-Canyon.com für Canyon Llech Tient ses promesses, très fun, très beau ! Attention, dans l'excitation on oublie vite les bases : j'ai pris une main courante câblée qui semblait mener à un saut de 6m environ. J'ai atterri dans 80 cm d'eau. Pas de bobo mais ça surprend. Fait à 2 : approche 30', canyon 45', retour 15' (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/237/observations.html>)
