Résumé: (traduction alternative) Year-round water canyon in red porphyry.		
Hydrologie:		
Accès: (traduction alternative) On the A4 coming from Verona, Bergamo, exit at Grumello/Telgate, then north along the Lago di Endine to Sacco (see map in photo gallery). There we park about in the middle of the village, where we find the signpost to the "Valle dell'Inferno".		
Approche: (traduction alternative) First we follow the directions to the "Valle dell'Inferno" and go on the dead straight track until the bridge over the stream (Resio). Before the bridge we now keep going up over some rock slabs, meet a path and follow it (on the orographic left side of the slope). The path changes over the stream to the other side of the slope. We make an effort to follow the marking "K3" on a blue background. We pass a modern steel cross, but then we do not follow the mark "K3" to the right to the creek, but climb a bit more and reach an area where the path is quite horizontal. Here we enter the stream.		
Tour: (traduction alternative) 14 rappel, at the beginning some possible jumps, slippery, mostly open		
Retour: (traduction alternative) Before reaching the jetty, exit left and take the slope back to the car in Sacca.

Weapons ok (restored lanyard to exit hanging puddle on left) and many dives doable. Exact locations of dives are best known if you have a local who knows it by heart. Two 20m ropes may suffice. (traduction alternative)
