Spécialités:
Barrage (informer l'exploitant),

Matériel:
Cordes: 2x40m
Rope protector,

Résumé: (traduction alternative)
Rather short tour; best time is in the afternoon; very beautiful pools with impressive abseils and jumps of up to 15m; emerald green water; beautiful view of the valley; highly recommended tour!

Hydrologie: (traduction alternative)
Infoline power plant: +41 91 756 93 01

Accès: (traduction alternative)
From Biasca ri. Locarno --> into the Maggia valley --> into the village Giumaglio over the bridge and immediately the first street to the right --> here li first parking possibility or follow the street to the right and directly at the bridge small parking possibility --> here you already have a view of the last rappel C40 and the water level (approx. 360Hm).

Approche: (traduction alternative)
From the parking lot, walk toward the church --> behind it, several narrow alleys lead to the hiking trail that climbs up to the Cappella di Cima --> the stone steps climb steeply all the way up --> past an iron gate to a small stone hut with a well (approx. 540Hm) --> Behind this house, you'll find the first option to descend into the canyon (entry to Nizzola Eldorado Ticino)--> The second option is at the second pilgrimage hut; turn right toward Camusegn and continue along the trail to the bridge.

Tour: (traduction alternative)
After a bit of climbing, you'll come to a boulder with a fixed rope and a C15 rappel point through a crevice --> followed by a nice jump or rappel of about 10 meters into a very deep pool --> After the swimming passage, the gorge narrows --> Rappel point on the left, approx. 16 m --> Narrow swimming pool with very clear water leading to a spot where you can jump, rappel, or slide (deep pool) --> The next section is very narrow, so jumping is only for experienced swimmers --> Further along, there's a series of abseil points totaling 40m, each at different heights and some with sharp edges --> The view of the next pool and the valley is beautiful (the afternoon sun is ideal) --> the last rappel section can be bypassed, but the lowest pool, at about 350 Hm, is still inviting for a swim.

The stated access and descent times apply to the entry as described in *Eldorado Ticino*.
The route description between the bridge and the Nizzola entry is missing.

Be careful on the sharp edges;

Retour: (traduction alternative)
At the pool before the bridge (ca. 360Hm) right up the stone steps and left through the wooden gate to the road and to the first or second parking lot.

The slippery spots are usually easy to spot because of their green and brown coloration. Thanks to the recent rain, the water level is fine. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Giumaglio Nous n'avons parcouru que la partie inférieure, avec l´approche juste après la maison.Au moins la moitié des ancrages sont extrêmement mal positionnés. Sauf pour les entreprises qui vendent des cordes.Avec un peu plus d'équipement aux bons endroits, ce canyon pourrait être beaucoup mieux équipé.Nous avons installé trois nouveaux ancrages afin d'améliorer un peu la situation :Un comme point de départ pour la main courante au première rappel (l'ancien crochet est tordu depuis plus d'un an et le boulon est visible sur près d'un centimètre. Afin que chacun puisse se faire une idée
