Avertissements: <i>Felssturz bei SOS1</i> ACHTUNG beim SOS1. Hier gab es einen Felssturz in den Pool. Hierdurch muss man wesentlich genauer springen. Generell sollte man den Bereich unter dem SOS1 meiden, bzw. dort zügig vorbei gehen, da die Wand darüber immer stärker zerbricht und hier immer öfter große Felsen runter kommen.		
Spécialités:		
Matériel: Cordes: 2x 40m		
Résumé: (traduction alternative) Beautiful aquatic lime canyon with longer walking and many climbing passages; some abseiling points directly in the water course; when there is a lot of water, the narrow passages can be difficult; very brittle limestone (danger of falling rocks!); Pro Canyon; time-consuming with larger groups; large catchment area; emergency exit in the lower part; several jumping possibilities, the canyon is constantly changing, therefore always check pools before jumping.		
Hydrologie:		
Accès: (traduction alternative) approx. 15min From Carnia take the SS13 (main road) in the direction of Tarvisio. About 3km after the village Resiutta there is a small tunnel and a bridge over the Fella river. After the bridge turn left and drive in the direction of Roveredo. After a short time there is a bigger road bridge where you can see a big flat streambed. Here is the exit if you want to go through the whole Rio Simon. It is best to leave the cars here, as there are only a few parking spaces further up in the village, which are rather intended for locals (N46.398500/E013.263400). If you are going to cut, follow the road to the small village of Roveredo with as few cars as possible. In the last few years an access has been established and for this it is best to park at the small church of Roveredo. But ATTENTION! The Rio Simon is one of the most frequented canyons in Friuli and we do not want to disturb the inhabitants. Therefore, please always ask and, if necessary, if there are already too many cars at the parking lot, switch to one of the parking lots that you passed before when approaching the village of Roveredo. (N46.387213/E013.252620) or nearby if it is too busy. Please be considerate of the inhabitants so that we can continue to visit this canyon for a long time without problems.		

Approche: (traduction alternative)

From the parking lot near the church, walk uphill on the opposite side of the asphalt road and you will immediately reach the small cemetery of Roveredo. Here, to the right of the cemetery, a clearly visible path leads up into the woods. Follow this path until you reach a small meadow with a house. Pass the house on the right and go up through the meadow. Above the house near the forest you should meet the path again. Follow the path steeply uphill until you reach hiking trail 424 after about 20 - 25 min. Follow the trail to the right. After about 1h ascent come some ruins and a little higher (at about 760m) at a fork in the road a small cross on the side of the path. Here you follow the right now narrow and sloping path for about 30min. which leads directly to the entry at about 630m (one crosses initially a small stream and passes later shortly before the access still a large rock roof)-->!!at the access no stones loosereten.

Tour: (traduction alternative)

Arrived at the entry at about 630m you can already see the first pool with crystal clear water but no pitons --> at this point is often jumped, but can also be downclimbed --> this is already followed by the next steps in narrow canyons --> the next belaystation is on the rock right. hidden at the top --> here either 15m directly into the pool or downclimb over a ledge 20m to the next belaystation --> immediately after 10m in the overhang into the pool --> short open gorge section --> walk --> downclimb to the belaystation on the left side before big clamping block R5+S3 in pools below the big clamping block --> after the big clamping block the canyon becomes narrow for a longer time --> many small drops follow which can be downclimbed, jumped or rappelled depending on the water level. Between the bends there are some short walking passages (swimming passages) in impressive surroundings (high canyon walls) --> at a prominent point the canyon makes a 90° left bend here you can rappel to the right (hidden stance) or jump directly 6m --> after a few minutes the first higher approx.20m rappel from a big rock -->and a sunny open spot where you have a steep emergency exit on the right --> open it continues to the 15m rappel on the right or jump --> longer walking and climbing passage in open terrain to the next belaystation far to the right outside --> a short walking passages follows before you reach the highest rappel of about 30m (li.) --> the canyon gets narrower again before it finally opens up --> several walking and climbing sections have to be overcome before you reach the last rappel points --> here you can jump 8m or rappel 10m depending on the water level --> there is another slippery sloping rock slab that can be partly descended or rappelled --> after the ramp it goes right about 1km over a flat streambed to the bridge at about 300m.

Retour: (traduction alternative)

Right before the bridge to the shuttle car or walk along the road for about 2km to the 2nd car at exit path 424.

Rapports:

2026-06-20 | Horst Lambauer | ★★★★★ | 📖★★★★ | 📍★★★★ | 🟢 Terminé

Everything's fine so far, except BEWARE at SOS1. There was a rockfall into the pool here. Because of this, you have to time your jump much more carefully. In general, you should avoid the area below SOS1—or at least pass through it quickly—since the wall above is crumbling more and more, and large rocks are falling from there with increasing frequency. (traduction alternative)

2026-06-06 | Bernhard | ★★★★★ | 📖★★★★ | 📍★★★★ | 🌊 Normale | 🟢 Terminé

Everything ok (traduction alternative)

2026-05-23 | Rok | ★★★★★ | 📖★★★★ | 📍★★★★ | 🌊 Haut | 🟢 Terminé

Everything tip top and with care everything jumpable. A little more water than usual... (traduction alternative)

2026-05-05 | Rick Paapy | ★★★★★ | 📖★★★★ | 📍★★★★ | 🌊 Faible | 🟢 Terminé

Everything is ok. Watch out for rappel 1, rockfall. (traduction alternative)

2026-05-02 | MirkoT | ★★★★★ | 📖★★★★ | 📍★★★★ | 🌊 Normale | 🟢 Terminé

All perfect. In the last puddle (still diveable even though changed in shape) the left bank is sliding down and, like the Pissanda, don't stay long in that area. Photo 1: Last puddle changed because left bank is landsliding down. Photo 2: Left bank falling apart. (traduction alternative)

2025-12-29 | Horst Lambauer | ★★★★★ | 📖★★★★ | 📍★★★★ | 🌊 Faible | 🟢 Terminé

everything tip top (traduction alternative)

2025-09-20 | Badegruber Friedrich | ★★★★★ | 📖★★★★ | 📍★★★★ | 🌊 Normale | 🟢 Terminé

Everything top, one of the most beautiful canyons in the area, always a pleasure. (traduction alternative)
