2026-04-18 MirkoT ★★☆☆ 📖★★★★ ⚓★ 🌊 Haut 🍌 Terminé At the Farsora waterfall there were no weapons so we installed cordon+maillon on tree on right bank. In the next passage it would be good to fractionate in the hanging bottleneck about 8 meters downstream of the installed nat. The second rappel is in the second bottleneck (about at elevation 560) and needs to be completely re-installed (single old and spinning limb). In this meander be careful not to dive into the puddle as the flow can cause dangerous plating. (traduction alternative)
