**Résumé:** (traduction alternative)

Slippery, aquatic canyon, several woody outcrops, limestone/shale; nice single passages; about 13Km<sup>3</sup> catchment; Some jumps possible.

**Hydrologie:**

**Accès:** (traduction alternative)

From Kötschach-Mauthen drive in the direction of Kirchbach --> in Kirchbach over the Gail bridge to Stranig --> drive through the village of Stranig and at the ascent to the Straninger Alm drive up the forest road on the left --> at approx. 930Hm park the 1st car next to the road (only a few parking spaces) --> with the 2nd car drive further up the forest road to approx. 1360Hm --> park in front of the small wooden bridge on the right or left.

**Approche:** (traduction alternative)

Before the bridge, descend through the forest directly to the stream (approx. 1360Hm)....

**Tour:** (traduction alternative)

Right at the beginning there is a not to be underestimated short abseil with tree stump siphon --> some small climbing passages and small slides (a lot of wood) follow --> to reach the following approx. 15m rappel point, a rope traverse over a large stone on the left should be set up --> in the further course of the canyon there are several medium-high steps in pools and some mostly problem-free walking and climbing passages --> after a slide of about 3m and a tributary from the right, follow the increasingly shallow streambed to the concrete shoring --> here you leave the canyon on the left.

**Retour:** (traduction alternative)

Leave the creek before the concrete obstruction on the left --> go steeply up through the forest via a path that is not easily recognizable until you meet a forest road --> follow this until you reach the parking lot (1.car).
