Résumé: (traduction alternative)
Almost dry canyon except after rains, at which time we will need the bib because the marmitas reach beyond the waist. It is a very continuous canyon with beautiful rappels.
Regulation of the Parc Natural del Port:
http://parcsnaturals.gencat.cat/ca/ports/visiteu-nos/normes_i_consells/regulacio_dactivitats/#FW_bloc_5f7cccc7-e01b-11e3-b22a-000c29cdf219_8

Hydrologie:

Accès: (traduction alternative)
We will be located in Horta de Sant Joan on the T330.
We will leave towards Arnes and after 100m we have the detour to the left to "Els Ports". We will continue along the track/road for about 3kms until a curve to the left with a dirt track on the right and a signpost, we will go through here and after a kilometer we will find another track to the left, which goes towards the Coll de l'Oroval. After 300m a chain or a little further at the reservoir we will have to park.
The other option is to continue along this dirt track and go to the exit of the ravine right at the Estrets river, where we will park.

Approche: (traduction alternative)
We will follow the path of the tank towards the pass, just before arriving there is a path to the right under the wall. After going around the wall we will go up to a pass that brings us closer to the Salt del Barber, we cross it in front of the next pass. From this pass we only have to go down to the bed of our ravine.
From the Estrets river we must climb the ridge towards the Mola de Biarnets, there are some milestones indicating the way, which at times is somewhat exposed, with loose stone and small climbs. Almost upon reaching the Mola, a path to the right leads us down to the riverbed in a steep descent.

Tour: (traduction alternative)
Continuous descent with almost no breaks until reaching the final cirque with its 40m rappel after which the descent ends.

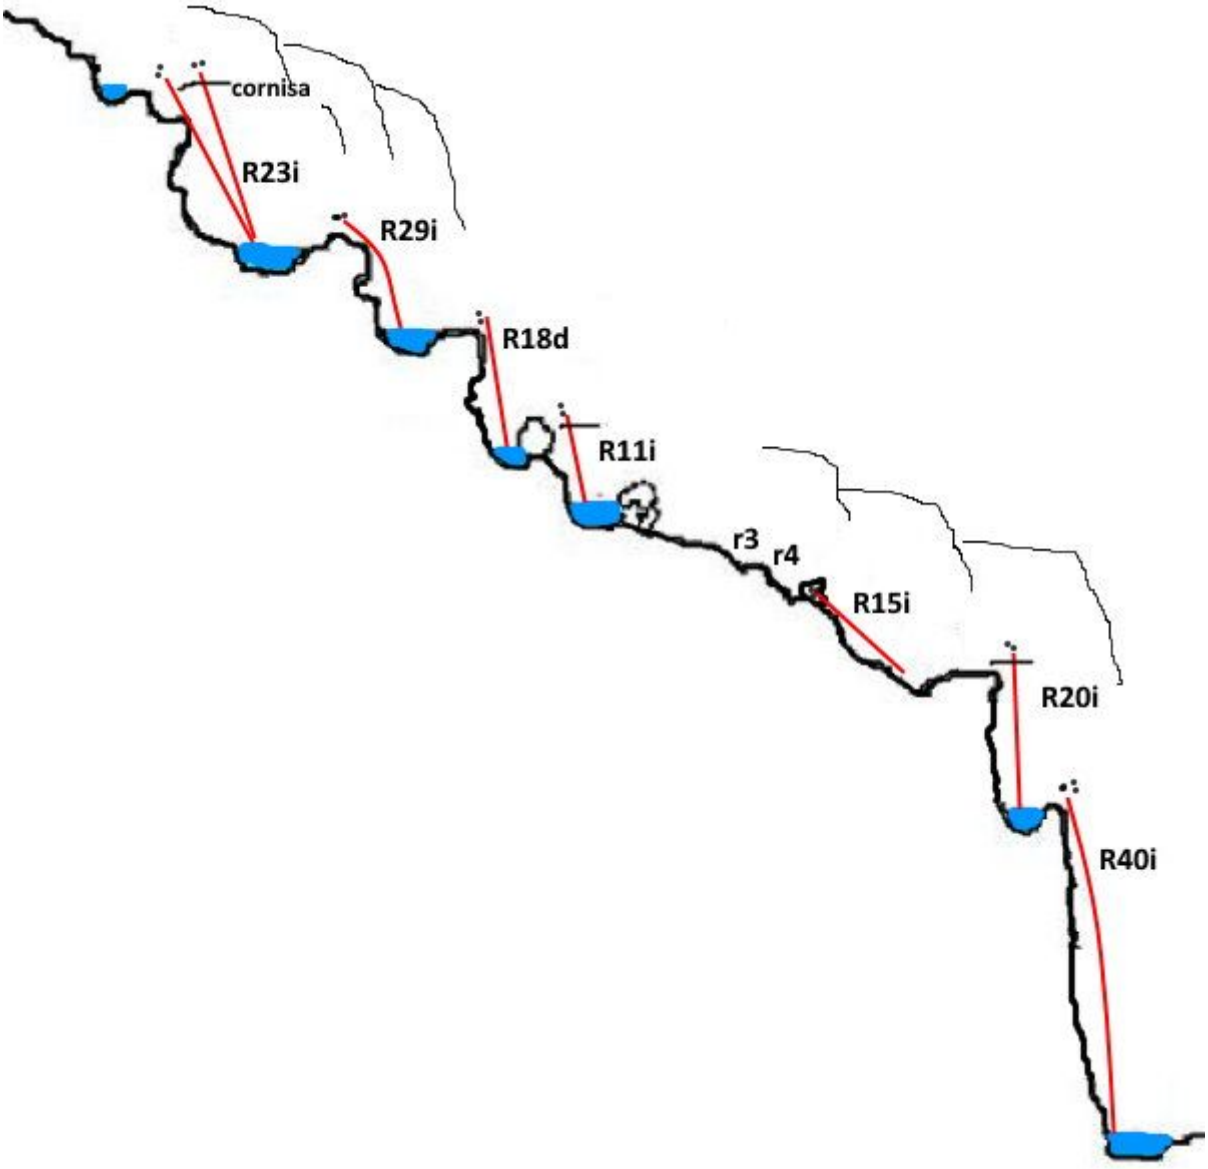

Retour: (traduction alternative)
If we have left the car at the exit it will be almost immediate.
If we have the car on the track of the pass we will have to take the track to the detour and from there to the car about 3kms.
