Résumé: (traduction alternative)
A couple of nice little pools. Low flow rate.

Hydrologie: (traduction alternative)

A couple of nice little pools. Low flow rate.
Little serious, numerous paths available.

Accès: (traduction alternative)
From the A10 Ventimiglia/Genua highway, take the Arma di Taggia exit. 2.6 km after the toll booth, take the second road on the right: SS1bis direction Imperia-Taggia. A short stretch of highway, then uphill at the traffic circle in the direction of Taggia-Triora. Shortly after Badalucco, turn right towards Montalto-Carpasio, 7.5 km to Carpasio. At the entrance to the village (the road makes a hairpin bend to the left) continue straight on and drive between the houses to reach a good parking lot.

Approche: (traduction alternative)
Head towards "Chiesa San Sebastiano" via a descending gravel ramp, then turn left. Pass a first canyon, a first hill with a ruin, a second with a hamlet "C.se di Villa", also in ruins, and a second clearly recognizable canyon. Climb up some small hairpin bends to a ridge with a ruin. After 250 m a small dry canyon, continue for another 250 m to a second dry canyon. A good path leads to the stream.

Tour: (traduction alternative)
A C4 (jump of 2 or 4), a sloping slide leads to a pretty little canyon. C10 rappel on the left or descent on the right bank, watercourse with a fixed boulder. The path becomes very open and is interrupted by numerous 2 to 10 m high ledges. There is a nice passage under a first bridge (626 m above sea level), continue 300 m to a second bridge.
Only one point for C10, the other rappels are directly on trees.
Pleasant, open and sunny route suitable for families.

Retour: (traduction alternative)
Just before the second bridge on the right bank, you can leave the path and get onto the bridge. Follow the good path, which becomes a gravel path, to the car.
