Résumé: (traduction alternative)
A short, sunny canyon suitable for beginners with beautiful diving and sliding pools.

Hydrologie:

Accès: (traduction alternative)
Take the SP1 to San Francesco. Park in the Selenz district (parking spaces in the center of the village and a little further upstream near the bridge over the Rio Marin)

Approche: (traduction alternative)
Opposite the parking lot, follow hiking trail 827 along an initially asphalted forest road over two hairpin bends to a small saddle, then descend to the right along hiking trail 840 into the Rio Scluson valley. Cross the bridge and over the flat gravel bed to the exit of the first part of the tour. On the other bank, ascend easily in rocky terrain with several hairpin bends, crossing a ditch. When you see the streambed of the Rio Sclusons again on a shoulder, descend briefly without a path.

Tour: (traduction alternative)
After a few boulders, a low gorge in the bedrock begins.
C 8m rappel from an anchor on the right; jump or slide into a hanging pool
C 12m rappel from an anchor on the right; small pool—jump or slide
C 10m rappel from an anchor on the right; jumpable from the rock tower on the left
C 9m rappel from an anchor on the right
A chaotic series of boulders follows; the highest step is made easier by an anchor on the left—C 15m rappel
After a short hike, you'll find yourself in front of the waterfall you saw during the ascent.
C 10m anchor on the left; possibly jumpable
2m jump, repeatable. Crosses the hiking trail.
You can exit the route here and walk back to the parking lot via the access path (15 min)
Alternatively, follow the stream for 15 minutes to a final narrow gorge with several places to downclimb, a C2 from an anchor on the right, a jump, and a magnificent rock channel with crystal-clear, turquoise water.

Retour: (traduction alternative)
A bit after the gorge, a path crosses the stream, either on this path to the right to the road (slight uphill section) or 15min through the streambed to the road bridge. Before the bridge turn orographic right to the road.

All stands were equipped with a second rappelling ring. Thank you very much! The water is cold. It is October, after all. (traduction alternative)

Everything's great. A nice, short hike, and the lower section is also beautiful when the sun comes out. (traduction alternative)

Everything's great—there's a beautiful jumping canyon in the upper section. The first rappel/jump can also be easily slid down. (traduction alternative)

First three waterfalls you can jump safely. Exit of canyon beautiful! You have to do it safely. Maybe do the access early in the morning. At 12 o'clock it was a bit hot (traduction alternative)

Canyon that is worthwhile. It is divided into 2 sections interspersed with 20 min walk on the creek. It is both playful (tobogganing and diving) and scenic (traduction alternative)

Many dives to be made. We installed a single on the right bank in a disarramp in the second forked section just before the top meander. Photo: right bank exit on trail well traveled by trail runners. (traduction alternative)
