Résumé: (traduction alternative)
Rappel canyon, usually dry

Hydrologie:

Accès: (traduction alternative)
To descend the Myloi canyon, all cars can be parked on the coastal road at the exit point. To reach the entrance on foot requires a pleasant, slightly uphill hike of about an hour. If there is an off-road vehicle in the group, we can drive up to the entrance of the canyon more quickly, especially if we want to combine this with another descent on the same day to Gerakina Gorge, a little further down the road near the village of Schinos.

Approche: (traduction alternative)
Shuttle via Egirousa, see also links.
From the lower parking lot at the exit, first head west on the road for just under 800 m. Here the forest path goes up in a southerly direction. Due to the forest fires, the path (first to the south, then to the northeast) is somewhat difficult to find at the beginning where the path turns clearly to the northeast. Shortly after the path bends clearly to the south again, there is a small path on the left that leads us to the canyon.

Tour: (traduction alternative)
About 18 rappels, the 25m rappel can be broken. Sea view at the exit

Retour: (traduction alternative)
Exit onto the road, directly at the parking lot

A very beautiful canyon, just wear normal clothes instead of a wetsuit. The rock is quite slippery so be careful on the downclimbs. The beach at the exit is awesome.

Everything in order. Nice tour. The real challenge was the approach through the forest fire tree massacre. (traduction alternative)
