The entry to the path in the village is a little difficult to find. Steeply up the meadows, then the path is recognizable. We accidentally followed the descent at the signposted canyoning parking lot on the asphalt road for registered canyoning groups. But then you end up directly at the last two 30-metre rappels. So we missed the first part of the canyon. You probably have to follow the road a little further from the parking lots. (traduction alternative)
